

Tanzania has simplified entry rules for Russian tourists

Tanzania canceled COVID restrictions for Russian citizens vaccinated with Sputnik V from 6 June, 2022

From June 7, Russians vaccinated with Sputnik V no longer need to present a certificate with a negative result of a PCR test for coronavirus, made no earlier than 72 hours before departure, when crossing the border, and also to do an express antigen test upon arrival.

These requirements were not imposed on vaccinated tourists, however, until June 7, there was no Sputnik V in the list of vaccines recognized by Tanzania before, that is, Russians vaccinated by Sputnik V were not considered vaccinated.
